Money

by **Jeremy P.**, age 11

Money has changed a lot since old times. Money started out as simple items such as shells, rocks and salt, but those items had several flaws. People couldn't change with them. What would happen if they broke or got lost? Even though it was a problem, it didn't change for a long time. Now in the new millennium, money is being stored in computers.

by **Elizabeth M.**, age 10

Holes is a good book. It's about a boy named Stanley. He gets in trouble and then gets sent to Camp Green Lake (boys who are bad get sent there). They have to dig a hole 5 ft. wide all around and 5 ft. deep. Stanley gets in trouble and runs away from the camp. When he gets to a log he finds a boy named Zero, that ran away before Stanley did. Together they go and search for Big Thumb. You should read this book and find out what happened at the end!

Magic Show
by **Kevin J.**, age 7

I went to the magic show on Saturday, June 16th at the Roselle Public Library. Salerno's Rosedale Chapels sponsored the show. The magician's name was Michael Kett. He did lots of magic tricks at the library, like making a dollar into a bird. If you want there is a section full of magic tricks at the Roselle Library. I like magic because cool stuff happens. It's amazing! He did this one magic trick when he made his head bigger. There was this other trick where this kid came up, tapped on a box and a snake popped out. My favorite was when he threw up a pile of cards and one got stuck to the ceiling. You would like to come and see the show the next time. Remember to feed your brain !

Big Red by Jim Kjelgaard
by **Ryan J.**, age 8

Big Red is a book about a dog named Red and a boy names Danny. It's very interesting! You'll like it a lot if you read it. The story takes place in the woods in New York. Red is a hunting dog and Danny is a hunter.

In the story there is a bear named Old Majesty that keeps on killing Mr. Hagrid's bulls. Danny and Red also go partridge hunting. Danny shot three partridges and Red retrieved them all. Red and Danny also trap animals in the creek. In the story, Danny and Red went to the creek to check the traps. They were all snapped, but nothing was in them. To find out more – read the book.
