Ice Age 3, Dawn of the Dinosaurs
by **Anaya S.**, age 8

Ice Age 3: Dawn of the Dinosaurs is a good movie. It's in 3D. In it a Tyrannosaurus Rex carries sid the Sloth away for taking her babies and acting like their parent. His friends, Diego the saber-tooth tiger, Manny, and Ellie the wooly mammoths go on a quest to save Sid. They follow some tracks that they see and find that there is a another world beneath them, where dinosaur's live.

On their quest they meet villains like Rudy, a dinosaur bigger than the t- rex and heroes like Buck the weasel. This movie also features the famous squirrel that is in all the movies. In this film he meets a new friend. To get to Sid they have dangers to cross although they really aren't that dangerous to me.

They could have improved this movie by making Rudy scarier. I do think this movie will be fun for everyone. There is a surprise at the end. It is better to have watched the first two movies before watching this one so that everything makes more sense.

The Book on the Hook
by **Ananya S.**, age 8

Today I read a book
Which was dangling from a hook
That had been stolen by a crook
Who got himself poked by the book
And I found the crook
Who was dangling from the hook
Reading the book
And I took him off the hook
And I sent him off to the brook
Then I took the book And hung it on the hook
And now I'm reading the book
And it's title is "Sook".
